

The logo for Bonbon Blings is centered within a light yellow oval with a white border. The word "Bonbon" is written in a large, pink, bubbly font with a red outline. The two 'o's in "Bonbon" are replaced with four-pointed stars. Below "Bonbon", the word "BLINGS" is written in a smaller, bold, red, sans-serif font.

Who are we?

Bonbon Blings started as a simple hobby, born from a love for crafts and a desire to start something new. What began as a way to pass the time soon grew into something much more meaningful. Today, it's a small business proudly run by me, Niña Balangue, a 4th-year student from MSU-IIT, and it's been a joyful companion throughout my college journey.

We create handmade trinkets and accessories, each crafted with love, care, and a bit of sparkle. From our classic bead bracelets and playful phone lanyards to our new crowd favorites like keychains and fuzzy wire pocket mirrors, every piece is made to bring a little happiness to your everyday.

Our Experience

Bonbon Blings loves being part of the bazaar scene. For the past two years, we've been a regular at MSU-IIT trade fairs like Society and College Days, the FEB-IBIG Bazaars, Christmas Bazaar, and the recent WELCOME FRESHIES! event.

Lately, we've also started joining bazaars beyond campus, including SUOK Bistro's Yard Finds and URBAN Coffee Studio's Flea Market. We're always excited to meet our customers in person, share our creations, and be part of local creative spaces.

Help us bring our little treasures to happy hands.

We'd love to collaborate with your café by displaying our handmade crafts in your space. Each piece is thoughtfully created to bring a touch of charm and delight, complementing the warm and welcoming atmosphere your cafe already offers. By sharing our crafts here, we can create a cozy little corner where customers not only enjoy their coffee but also discover small treasures to brighten their day. If this opportunity interests you, please feel free to contact me so we can discuss the details further.

Consignment Arrangement with Revenue Share:

The products will be displayed in your café on a consignment basis, requiring no upfront cost. A 20% markup will be added to each item, which will serve as your café's share of the revenue. This ensures you receive direct income from every sale without any financial risk.

Proposed Display Set-up

Restocking Schedule: I will personally handle restocking on a weekly or bi-weekly basis. I will also leave a list of inventory to your staff so they could check off items that are sold throughout the week. This keeps the display fresh and inviting for your customers, without adding any responsibility to your team.

Sales Collection: Sales proceeds will be collected during each restocking visit. This keeps transactions simple, organized, and hassle-free for your café.

**Thank you for
supporting my
handmade
dreams.**
